

What is the Boost Charger?

- Designed to take power from the tractor alternator to charge an auxiliary battery pack
 - Liftgates
 - EON Powerpack battery
- Alternate solution for charging if solar is not feasible or not enough
- 2 Versions: 20Amp & 35Amp
- Can be used to isolate a T-series reefer alternator from a truck battery bank
- Comparable to the Purkey's/Cooper Trail charger
- Can easily be the best selling accessory in TK
